English Literature Advanced Subsidiary

AS (8ET0)

English Literature Advanced GCE

A level (9ET0)

Course content and examination requirements:

These courses aim to develop students' interest in and enjoyment of literature and literary studies as they read widely and independently: set texts and others that they have chosen themselves. Students develop and apply their knowledge of literary analysis and evaluation, and explore the contexts of the texts they are reading and others' interpretations of them. By A level, students should be able to show knowledge and understanding of the functions and effects of the writers' use of language, form and structure in texts; the interpretation of texts by different readers over time; how texts relate to literary traditions, movements and genres; and the cultural and contextual influences affecting readers and writers. The A level course allows students to undertake independent study in order to deepen their understanding of English literature and its changing traditions.

The English Department incorporates a range of methods into teaching and learning including group work, presentations, film, lectures, theatre or other visits as appropriate, the use of IT, as well as individual reading, research and writing. In addition to lessons, students will be expected to complete about six hours of independent study a week.

Important Note:

The new AS and A Level courses have been designed to be co-teachable, so students studying together can decide to study for the AS only in Year 12, and/or for the full A level over two years. Students will sit exams at the end of Year 12 for the AS award, and then sit a new set of exams at the end of Year 13 for the A level.
